# Editorial

**Devendra Narain Singh**, *Professor, Department of Civil Engineering, Indian Institute of Technology Bombay, Mumbai, India-400076; e-mail: dns@civil.iitb.ac.in*

I am thankful to the ISSMGE International Journal of Geoengineering Case Histories (IJGCH) for giving me an opportunity to act as Guest Editor of this Special Edition, which has been named "Contemporary Case Histories in Geoengineering". Authors of twelve papers, which were submitted to the 12th Conference of the International Association for Computer Methods and Advances in Geomechanics (IACMAG) held in Goa, India, from 1-6 October 2008, under the theme of Geomechanics in the Emerging Social & Technological Age, were invited to upgrade/modify their manuscripts as per the requirements of the IJGCH. I am thankful to the authors for extending their fullest cooperation in preparing the manuscripts as per the guidelines of the Journal, taking into account the additional review comments. All papers went through the rigorous review process of the IJGCH. I acknowledge the IACMAG for approving publication of these papers in this edition of the IJGCH. I hope these papers will be well received by the readers.

I am much thankful to the reviewers for extending their help, support and guidance in bringing out this edition of the Journal.

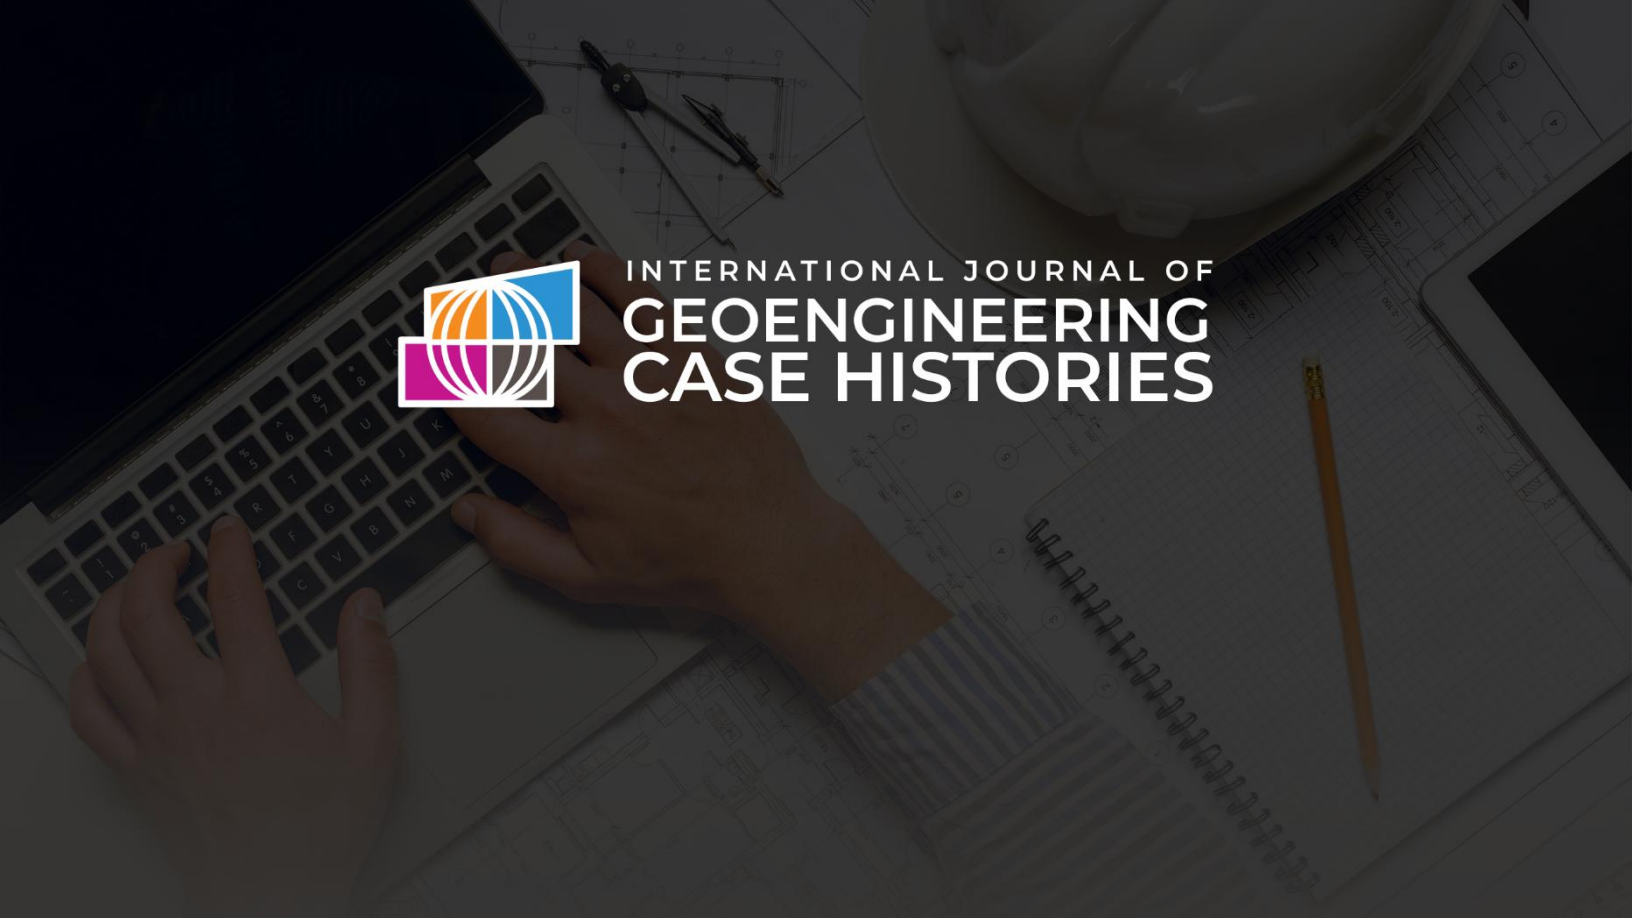

Sincerely,

Dr. D. N. Singh
Guest Editor
